This license lets others remix, tweak, and build upon your work even for commercial purposes, as long as they credit you and license their new creations under the identical terms. This license is often compared to “copyleft” free and open source software licenses. All new works based on yours will carry the same license, so any derivatives will also allow commercial use. This is the license used by Wikipedia, and is recommended for materials that would benefit from incorporating content from Wikipedia and similarly licensed projects.

You are free:

to Share — to copy, distribute and transmit the work

to Remix — to adapt the work

to make commercial use of the work

-> Crediting not entirely necessary, do it when possible.

Usage

All of my material is entirely free to use so long as the project, game or otherwise is non profit. You can alter, and redistribute any of these so long as I remain credited as the original author (you can feel free to throw a link back here as well).

Reposting

I do not allow reposting and reuploading of my material to anyone. **The only place where my stuff may be uploaded is in RPG Maker Web AND RPG Maker VX Ace.Net.** Anywhere else it shows up is to be considered a violation. The reason for this is that such places where reposting takes place usually don't give proper credits, and I still want to be recognized for my hard work.

Commercial usage

I'm actively seeking sponsorship to cover hosting expenses. So maybe we can agree to a commercial license in exchange for some hosting payments (maybe one month or two?) Contact me if it's fine and you're interested.

About

So far the "staff" consists of one person, which is myself. After seeing several RPG maker games I decided to give a crack at it. All of which will be non commercial downloads when completed. However being low on funds does defeat me when it comes to certain aspects such as needing snacks and occasionally needing to pay for resources when necessary when royalty free stuff doesn't cut it.

"But what if I wanna contact you and I can't reach you here!"
I dunno why you would but my email is Flamingteddyproductions@gmail.com

EDIT: Seeing as I'm terrible at keeping track of my emails please differ your messages to my other email, Quizicalgin@gmail.com

Also all my stuff is free to use for commercial and non commercial purposes. I coulda swore i said it somewhere before already but oh well. xwx
